Conservatories **in colour**

live life in COLOUR

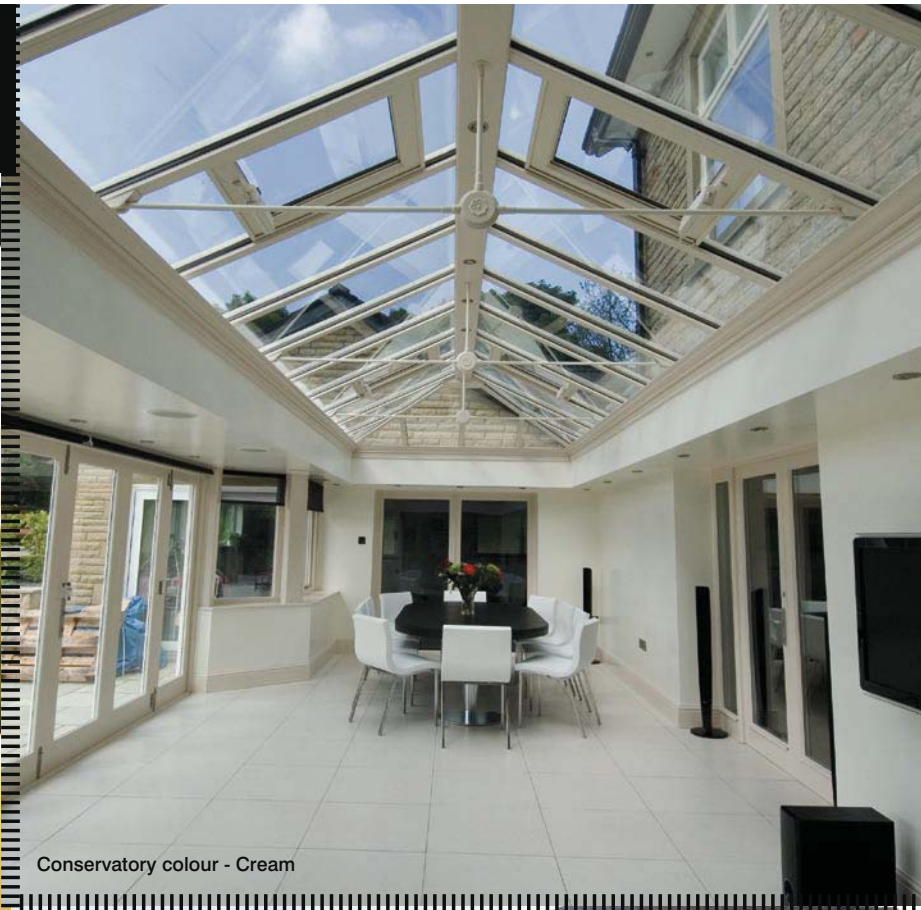

You are already on the way to making a life changing decision by choosing a conservatory. Space - usable for a variety of activities - and natural light a plenty, to banish those winter blues!

You can opt for conventional conservatory colours/finishes like the woodgrain effects or you can choose something different such as our carefully chosen colours.

Conservatory colour - Sage Green

Colour - applied correctly - has a profound positive effect on your wellbeing. It strongly influences how we interact with each other and our surroundings.

So what can you consider for your home and conservatory? Consider this:-

Black
Powerful, sophisticated, substantial, uncompromising

White/Cream
Has some of the characteristics of black with the addition of cleanliness and purity

Green
Related to nature, offers harmony and balance

Grey
Neutral, can work well with other colours, acting as a support to them

Conservatory colour - Black

Conservatory colour - Cream

Conservatories **in colour**

These conservatories feature major parts that are actually foil laminated, with only a minority of parts actually painted or extruded in base colours.

The foil laminated products used on major items in the roof and on the PVC side frames, have a real woodgrain texture to add a further dose of character.

The products can be coloured or woodgrain foiled to one side or both sides with the possibility to mix colours between the outside and the inside.

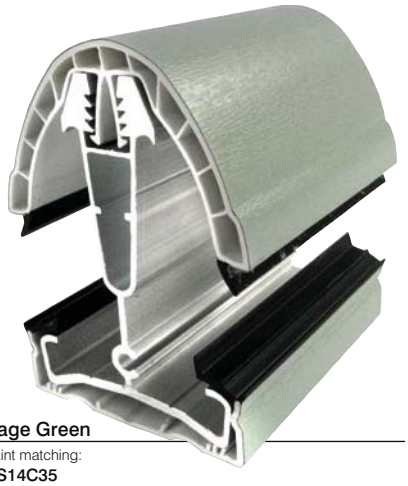

Ask to see a copy of our coloured swatches or sample profiles before you order.

A coloured conservatory consists of foiled and painted parts along with base colour extrusions. Every effort is made to ensure gloss levels are within reasonable tolerance. RAL and BS colour references are made in good faith. The colours above are reproduced as acurately as printing will allow, if in doubt always request an actual physical sample/foil swatch.
